

# GA EPD Consumer Confidence Report Certification Form

Community Water System Name: BURNT PINES SUBDIVISION

GA Water System I.D. Number: GA1830056

The CWS identified above does hereby confirm that an annual CCR for 2014 has been distributed to its customers (or appropriate notices of availability have been provided). The system further certifies that the information contained in the report is accurate and consistent with the compliance monitoring data previously submitted for the same time period to the GA EPD.

Certified and attested by the following person:

Donald S. Smith, Manager  
Chatham Water Company  
912-352-9339 Phone  
Date: 01-12-2015

---

Please mark and/or fill out all items that apply to your CCR program or specific means of report distribution.

**For ALL community water systems, indicate the method(s) used for CCR notification and/or distribution:**

**Note:** For systems serving **more than 10,000** persons, a “good faith effort” must be made to your “other” water system consumers by three of the following methods (mark all methods utilized):

- CCR is posted on the Internet at a publicly available site: [www.waterutilitymanagement.com](http://www.waterutilitymanagement.com)
- Rural route mailing to all consumers within the service area (attach list of zip codes used)
- Advertised availability of CCR to local news media (attach announcement list)
- Published CCR in local newspaper (attach physical copy of paper publication)
- Posted CCR notice of availability in prominent public location(s) (attach list)
- Directly delivered individual CCR copies to all residents in the community.
- Directly mailed individual CCR copies to each customer receiving a water bill.
- Included notice of availability with water bill
- Other direct delivery methods were utilized such as: \_\_\_\_\_

**For all systems serving > 100,000 persons of other Internet accessible systems:**

CCR is posted on the internet at a publicly available site: [www.](http://www.)\_\_\_\_\_

**All Community Water Systems indicate the number of “consumers served” by your CWS:**

- <500 consumers served
- 501 – 9,999 consumers served
- 10,000 – 99,999 consumers served
- >100,000 consumers served

**Send completed CCR Certification Form to the following address:**

GA EPD Drinking Water Program  
ATTN: CCR Program  
Suite 1362, Floyd Towers East  
2 Martin Luther King, Jr. Drive, SE  
Atlanta, GA 30334

Drinking Water Analysis  
Burnt Pines (WSID 1830056)

Detected Inorganic Contaminants

Parameter (units)	MCL	MCLG	Burnt Pines Water System Results	Range of Detections	Sample Date	Violation? No/Yes	Typical Source of Contaminant
Fluoride (ppm)	4.0	4.0	0.64	No range	2013	No	Erosion of natural deposits

Detected Organic Contaminants

Parameter (units)	MCL	MCLG	Burnt Pines Water System Results	Range of Detections	Sample Date	Violation? No/Yes	Typical Source of Contamination
Chlorine (ppm)	4.0	4.0	0.8	0.2-2.0	2014	No	Water additive to control microbes
Total Trihalomethanes (ppb)	80	n/a	2.3	1.1-1.2	2013	No	By-product of drinking water chlorination

Lead and Copper Monitoring Results

Parameter (units)	AL	MCLG	Burnt Pines Water System Results 90 <sup>th</sup> Percentile	# of sites above AL	Violation? Yes/No	Sample Date	Typical Source of Contamination
Lead (ppb)	15	0	2.5	0	No	2014	Corrosion of household plumbing
Copper (ppm)	1.3	1.3	0	0	No	2014	Corrosion of household plumbing

Microbiological Monitoring Results

Biological Parameter (presence/absence of bacteria)	MCL (number of detections)	MCLG (number of detections)	Burnt Pines Water System Results (number of detections)	Sample Date (Month/Year)	Violation? No/Yes	Typical Source of Contaminant
Total Coliform Bacteria	1 positive	0 positive	0 positive	2014	No	Naturally present in the environment

Notes: Positive BacT Result 03/11

How to Read the Report

**AL = Action Level:** The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

**MCL = Maximum Contaminant Level:** The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

**MCLG = Maximum Contaminant Level Goal:** The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

**MDL = Method Detection Limit:** The minimum amount of a substance (contaminant) that needs to be present in order to be detected.

**ppm = parts per million:** Means 1 part per 1,000,000 (same as milligram per liter) and corresponds to 1 penny in 10 thousand dollars.

**ppb = parts per billion:** Means 1 part per 1,000,000,000 (same as microgram per liter) and corresponds to 1 penny in 10 million dollars.

If you have any questions or comments regarding the water quality please feel free to give us a call at 912-352-9339 or toll free at 1-888-352-9339.
